SOUND & VISUAL

Professional AV Solutions for
Entertainment & Hospitality

★ OUR SERVICES

What We Do

Audio Systems

High-performance sound for restaurants, nightclubs, and concert venues. From intimate 50-capacity lounges to 2,000+ capacity outdoor stages.

Lighting Systems

Intelligent lighting design for entertainment venues. DMX control, moving heads, LED fixtures, and architectural lighting.

Video Systems & LED

4K projection, indoor/outdoor LED screens, video mapping. Complete visual integration for any venue.

Specialized Solutions

From immersive cinema audio to conference room clarity, we deliver tailored AV experiences for every application.

01

Hi-End Immersive Audio

Multizone and immersive systems for commercial and hospitality.

02

Conference Systems

Crystal-clear audio for meeting spaces, boardrooms, and training facilities.

03

Smart Automation

Unified control integrating audio, video, lighting, and building management.

Latest Cases

- **Nikki Beach Club, Koh Samui**

Outdoor beachfront venue with distributed audio across beach, pool, and restaurant zones. Weather-resistant system with multi-zone control delivering consistent sound across 2,000+ sqm from daytime lounge to evening DJ sets.

- **Moulin Rouge Nightclub, Phuket**

1,000+ capacity nightclub with concert-grade line array system and intelligent lighting. Cardioid subwoofer configuration achieved 4x reduction in stage bleed. "Only stage in Phuket of this level."

Latest Cases

- Shaman Lounge & Nightclub, Phuket

Outdoor beachfront venue with distributed audio across beach, pool, and restaurant zones. Weather-resistant system with multi-zone control delivering consistent sound across 2,000+ sqm from daytime lounge to evening DJ sets.

- Opera Karaoke Club Nightclub, Phuket

Premium karaoke venue with complete AV integration: multi-zone audio, video projection, LED screens, and intelligent DMX lighting. 3D acoustic mapping ensures perfect sound isolation between private rooms and main performance areas.

Authorized Distributor & Dealer

Clubtek works with the world's leading AV manufacturers including D&B Audiotechnik, Bose, Yamaha, and Shure. As official MX LAB Thailand distributor, we source genuine products with full warranties from authorized channels.

The Clubtek Advantage

Solution-Focused Approach

Every project begins with understanding your business goals, not just technical specs.

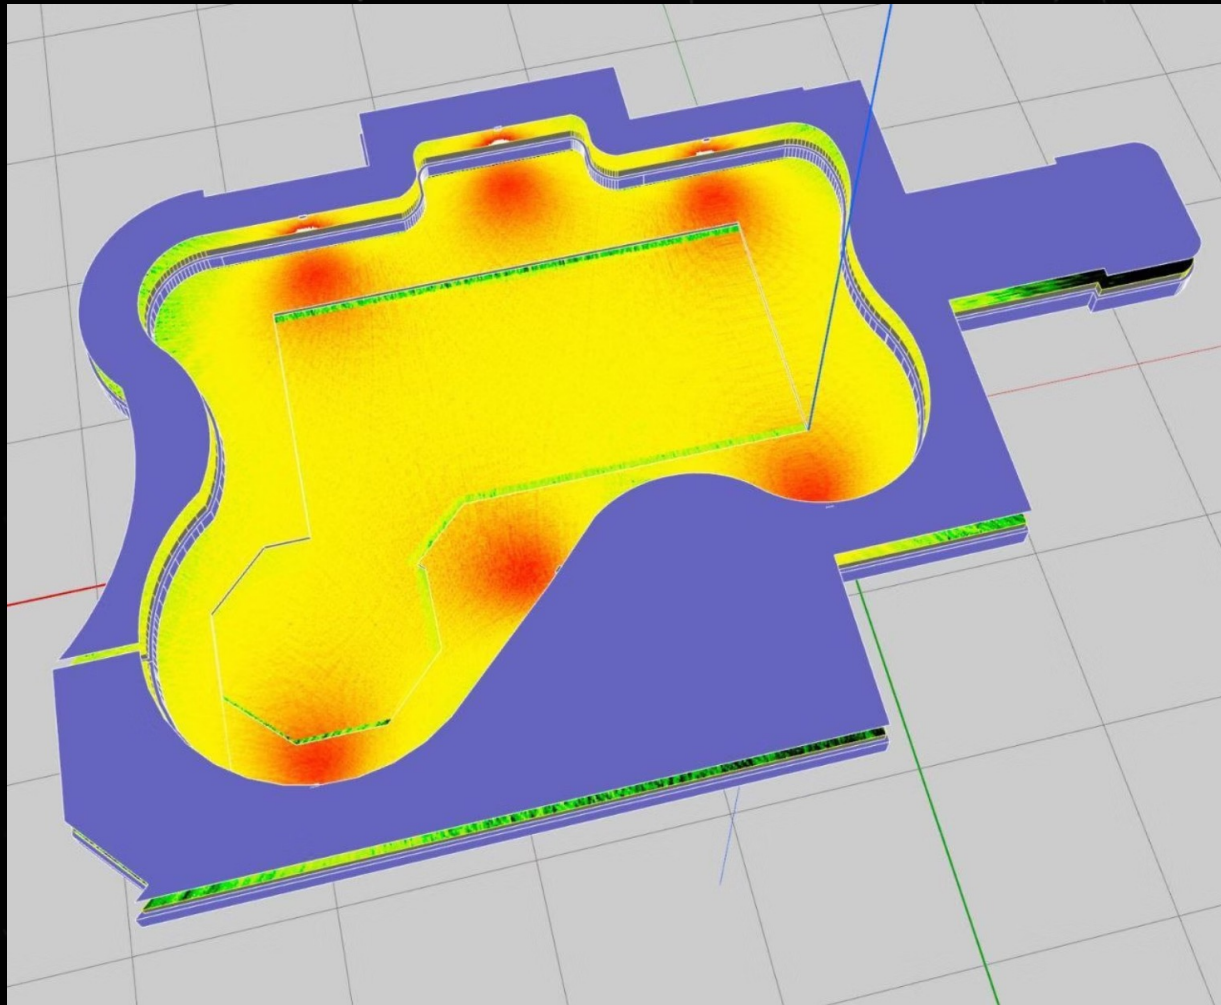

Comprehensive Services

All-round AV installation for bars, restaurants, nightclubs, hotels, conference rooms, and entertainment venues.

Attention to Detail

From design to installation, we focus on small details that make big differences.

See Your Sound Before Installation

We're the only AV company in Phuket using professional 3D acoustic modeling software to predict exact sound coverage, SPL distribution, and speaker placement before equipment is purchased.

This technology ensures optimal performance and eliminates guesswork—you see predicted results before we begin installation.

- EASE acoustic modeling software (industry standard)
- Precise speaker placement and coverage prediction
- SPL distribution maps at various frequencies
- Optimization for challenging acoustic environments
- Confident equipment selection—no surprises

"3D modeling showed us exactly how to eliminate dead spots and achieve even coverage. The installed system performed exactly as predicted."

— Project Manager, Kaif Spa Resort

Project Investment

RESTAURANT AUDIO SYSTEM
